(+886) 988-633-765

Skills

C / C++ / Python

Embedded Linux

Zephyr

FreeRTOS

Modbus TCP

MQTT

SNMP

CI/CD

Docker

ARM

AI / Deep Learning

Work Experience

Moxa Inc. | Software Engineer R&D

2023 - Present

- Designed embedded OT and protocol architectures.
- Developed P2P and Modbus communication frameworks.
- Maintained CI/CD workflows for legacy products.
- Optimized system reliability on constrained platforms.
- Resolved customer issues across protocol and embedded systems.
- Worked with PM, QA, and front-end teams on embedded products.

Academia Sinica | Intern

Jul. 2019 - Sep. 2019

- Developed speech recognition web applications.

Education

National Chung Cheng University

2020 - 2022

M.S. in Computer Science and
Information Engineering

- AI and speech recognition research using PyTorch.
- Focused on low-resource speech recognition systems.

Chang Gung University

2015 - 2020

B.S. in Computer Science and
Information Engineering

- Built AI and speech recognition projects using TensorFlow and Django.
- Developed embedded and RTOS-based ARM projects.
